

Abel Noser Wins 2016 Buy-Siders' Choice Award for Best US Equities TCA

NEW YORK, Dec. 1, 2016 /PRNewswire/ -- Buy-side traders named Abel Noser the Best US Equities Transaction Cost Analysis firm two weeks ago. The K&KGC Buy-Siders' Choice Awards provide traders a venue to recognize their service provider's contributions to the buy-side community. K&KGC presented the awards in conjunction with The Trade, a respected journal focused on securities trading and technology, in London on November 17th at the Savoy Hotel. The event is a distinguished awards dinner that is attended by senior representatives from leading buy-side firms and financial service providers.

Transaction cost analysis ("TCA") enables traders to measure trading quality across all phases of the trade life cycle, ensuring best execution and enhanced investment performance. Abel Noser provides TCA to over 400 global institutions consisting of investment managers, asset owners and brokers.

"We are very pleased to be recognized in this way," said Peter Weiler, President of Abel Noser Solutions. "The Buy-Siders' Choice Awards are genuinely democratic. The results are a vote of confidence from traders, who appreciate our efforts to provide high-quality TCA tools and superior service. We are grateful for the high regard that they place on our products and for the hard work and dedication of our employees, who made this award possible."

TCA continues to evolve as market data transparency improves in more asset classes and trade data from clients is delivered faster, more accurately and comprehensively. All of these factors allow traders to make informed decisions when executing portfolio trades.
